The 110V Induction Stand Set is smart!

1AIW1414110VSET

The 110V Induction Stand Set includes the stand (1A11120RVS), platform (1AP1414625) & the induction warmer (1AIW110V2).

The SMART Induction Warmer is the most economical warmer on the market today. It requires 69% less energy than our closest competitor.

Going green made easy: When our induction warming system is combined with our chafers and urns, you only need 1.82 amps of power per chafers, soup or coffee urn. This makes our system the greenest in the world for heating your buffet, and enables you to run as many as ten induction warmers on a single 20 amp circuit. Having such a low power requirement will allow you to easily set up buffets in meeting rooms, or on the fly without fear of tripping breakers.

Induction for Dummies: Your staff turns it on and walks away.

- Adjustable automatic shut off controller
- Auto temperature control between 170? - 180?
- Auto timer for 1-9 hours (preset at 6 hours)
- No fire hazards
- Consistent temperatures
- Safe and secure
- Heats chafers, not the room

COMPATIBILITY:

At 200 watts, the induction is most compatible with our chafers. It can be used with models 1A15300, 1A15301, 1A15302, 1A15303, 1A15600, 1A15601, 1A15602, 1A15603, 1A15700, 1A15701, 1A15702, 1A15703, 1A15704, 1A15705, 1A15706 & 1A15707. It is also compatible with most of our competitors chafers, BUT efficiency is greatly reduced. Competitors chafers may require as much as 600 watts/ 5.46 amps.

Induction conversion kits are available for our roll top chafers.
